### **BEST MORPETH MATCH;**

The County Plate semi-final of the 2018-19 season vs Alnwick;  
Conditions were awful and the pitch was like a 100m long mud bath. It was a very even match and each of our tries was answered by another try to Alnwick. It was a long and grueling 80 minutes filled with nothing but hard graft and mean faces. After a relentless attack from the opposition, it seemed as though our fate would soon be sealed by a try from Alnwick to see the game off. However, a miraculous turnover followed by hard carries and determination from the full team helped to charge the ball back down the field into the enemy's half. We then noticed fatigue in the Alnwick squad that created a weakness around the guards of the rucks, which we chose to take full advantage of by engaging in a series of pick and goes by the whole pack. This charge stretched from well past the 22m line, all the way to the try line to send off the game and take us into the plate final. I think that the ending to this game was especially great because every movement towards the end of the game was carried out together as one. No ball hogging or try chasing - just camaraderie and fighting for your team.

We later went on to win the Plate final and take home another piece of shiny silverware for the Mighty Peth!

**IF YOU WEREN'T A SECOND ROW, WHAT OTHER POSITION WOULD YOU LIKE TO PLAY;**

I'd love to play on the wing and show off the pace and agility that I've been hiding all these years...

Forward - Jaden Dixon (he's so fast, I never even saw him all season)

Back - Alfie Mather (only good when he's playing for the opposition)
